

CMRG

Centrifugal single-inlet, medium-pressure fans with hot-galvanised backward-facing blades to operate in chemical, aggressive or marine environments.

Fan:

- Robust hot galvanised sheet steel casing
- Impeller with backward-curved blades made from robust hot galvanised sheet steel
- Hot galvanised inlet ring

Motor:

- Class F insulation, IP55, except single-phase models which have IP-54 protection.
- IE3 efficiency for 7.5kW and larger motors. Except single-phase, 2 speed and 8 pole motors
- Single-phase 230V-50Hz and three-phase 230/400V-50Hz (up to 4 kW) and 400/690V-50Hz (power over 4 kW)
- Max. air temperature to transport: -20°C.+ 120°C.

On request:

- Special windings for different electrical supplies and frequencies
- ATEX construction for different categories
- Marine motors for naval applications with certification for essential service by various classifying societies (BV, DNV, LR)
- Made from stainless steel
- Marine motors for naval applications with certification for essential service by various classifying societies (BV, DNV, LR)
- CE, NEMA, UL, CSA motors
- IE2 and IE3 efficiency motors assembled on any unit

Finish:

- Hot galvanised steel anticorrosive

Acoustic features

The specified values are determined according to free field measurements of pressure and sound levels in dB(A) at an equivalent distance of twice the fan's span plus the turbine's diameter, with a minimum of 1.5 m.

Sound power Lw(A) spectrum in dB(A) via frequency band in Hz.
